

For over 50 years, Merritt Academy has nurtured the intellectual and creative talents of children.

Founded by a parent who was searching for a school for her own two daughters, Rachel O. Merritt boldly created her own school based on the following philosophy:

“Children progress along a well-defined road to maturity, but each according to his own tempo. They do not grow evenly or according to a time schedule. New features emerge, sometimes suddenly, sometimes gradually. From birth to maturity, it is through experiences that the child grows in body, knowledge, and skill.”

Committed to those founding principles, Merritt Academy continues to believe in the talents of each child as well as the responsibility of each educator to cultivate those talents. Above all, we inspire families to enjoy the journey of learning.

Our school is built upon three foundational pillars:

Academic Excellence

We provide a challenging academic program to all our students.

Character Education

We emphasize values and manners throughout our school to help build character in all our students.

Service to Families

We commit to serve every family earning trust through our responsiveness, flexibility, and support.

Merritt Academy Graduates

Our graduates are prepared to continue their learning journey, well-equipped with the tools to succeed academically, along with the strength of character to make morally sound decisions.

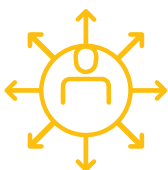

Grow as a leader, explorer and creator

Our early childhood through 8th grade journey inspires exploration beyond the book. Along the way, students develop communication, problem-solving, and leadership skills. Opportunities abound to apply knowledge and ingenuity.

Build confidence and connections

Our Project Pals partner older and younger students together in an array of enriching activities while our intergenerational program establishes "Grandfriend" relationships with senior citizens in our community.

Find passions and pursuits for life

Our nurturing teachers guide students during their learning adventure, encouraging them to try new experiences, make discoveries, develop expertise, and ultimately expand their horizons beyond campus.

What Merritt Academy Families Enjoy About the Journey

The Love

for my child and the incredible education she is getting!

Amazing

teachers and administrators!

Diversity

kids from different backgrounds and countries.

The Personalized

experience that each child receives.

Watching

my children thrive in a good balanced environment of academics, inter generational experiences, and under a community feeling at the school!

Everyone

is very welcoming and I feel that my child is in good hands.

Excellent

instruction, caring people and staff.

The Caring,

fun, and dynamic teachers

The Staff

are so awesome with the kids. It's the people who make the difference.
